Whom it may concern

Assurance letter

HIAB AB (code: 556981-2828), organized and existing under the laws of Sweden, with offices at Norra Vallgatan 64, 211 22 Malmö, Sweden, under current letter assures that Hiab constantly improves own products range in order to achieve the best technical performance and Customer satisfaction.

Regarding your request about technical data of loader crane Hiab XS 322 EP-3 DUO, hereby we confirm the following technical parameters of the crane:

- The needed working pressure of a hydraulic source – 32,0 MPa;
- A weight of the crane in the standard version – 3328,0 kg.

Hiab also offers a wide range of additional equipment including pumps, tanks, hoses, pipes, fittings, subframes, stabilizers, etc. and accessories.

These ones are not parts of the crane and may be supplied optionally according to Customers requests based on features of the cranes' installation and utility issues.

Your sincerely,

Kalevi Nurmi,
Vice President
Hiab Loader Cranes, Product Line
