

UGV

THE LARGEST
NATURAL GAS PRODUCER
of Eastern Europe

Anton Taranenko
March, 2019
Houston

2018

Ambitious fracking program
173 operations
in 2018
From 0 to >300
frackings in 2,5 years!

Accomplished

720

coiled tubing operations

340 mln. m³

Additional extraction

Accomplished

225

capital workover operations

270 mln. m³

Additional extraction

50%

commercial drilling speed increase in 2018.

92

new wells drilled in 2018

Purchased

15 heavy drill rigs

from world-class suppliers

8 already in operations

7 is being installed

1000 new vehicles purchased

30% of fleet

2019

116 new wells drilled and put into production

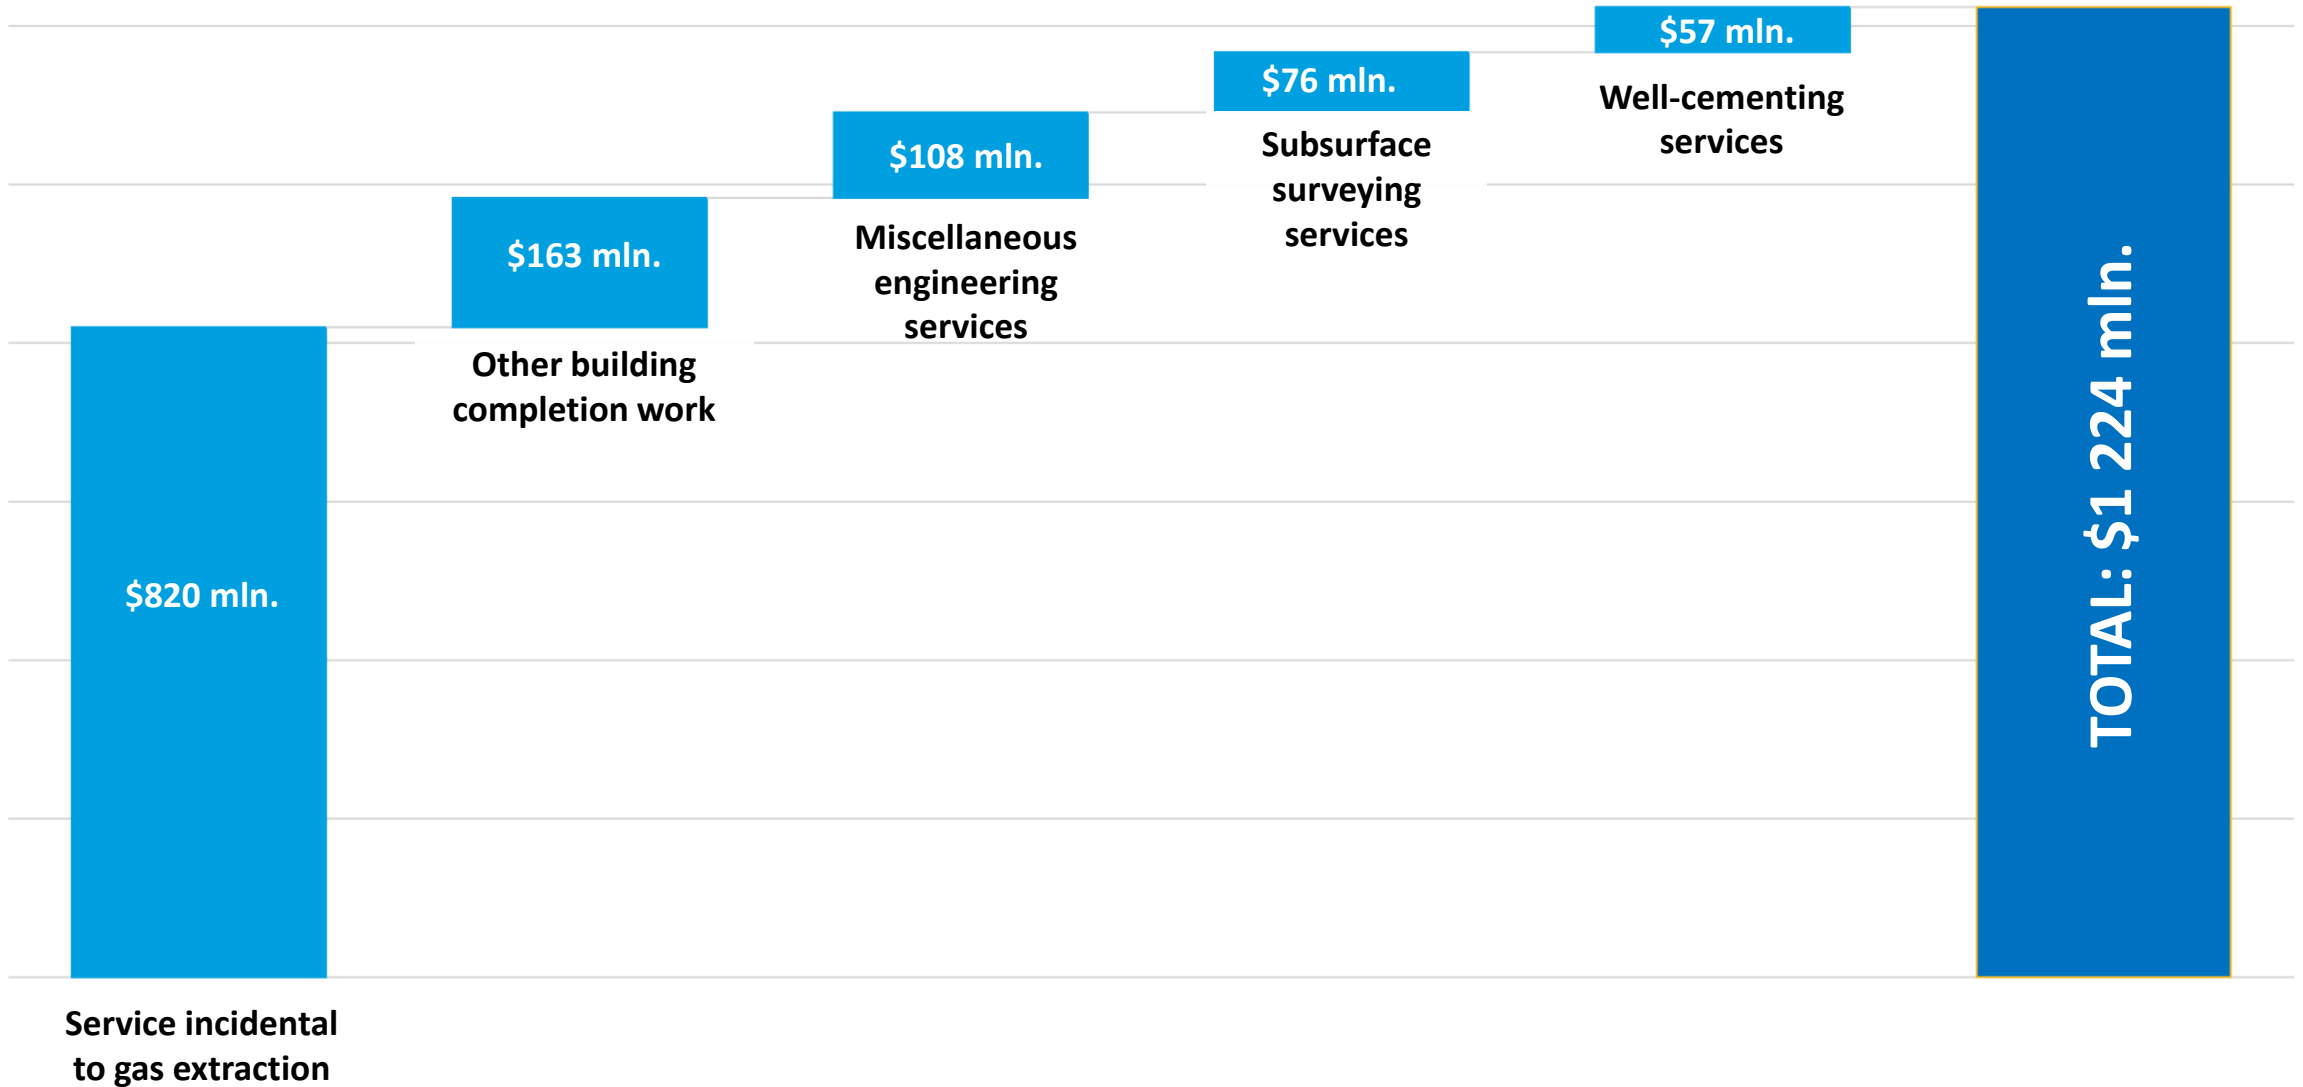

120+ hydro-fracking operations to be performed

180+ workover operations to be performed

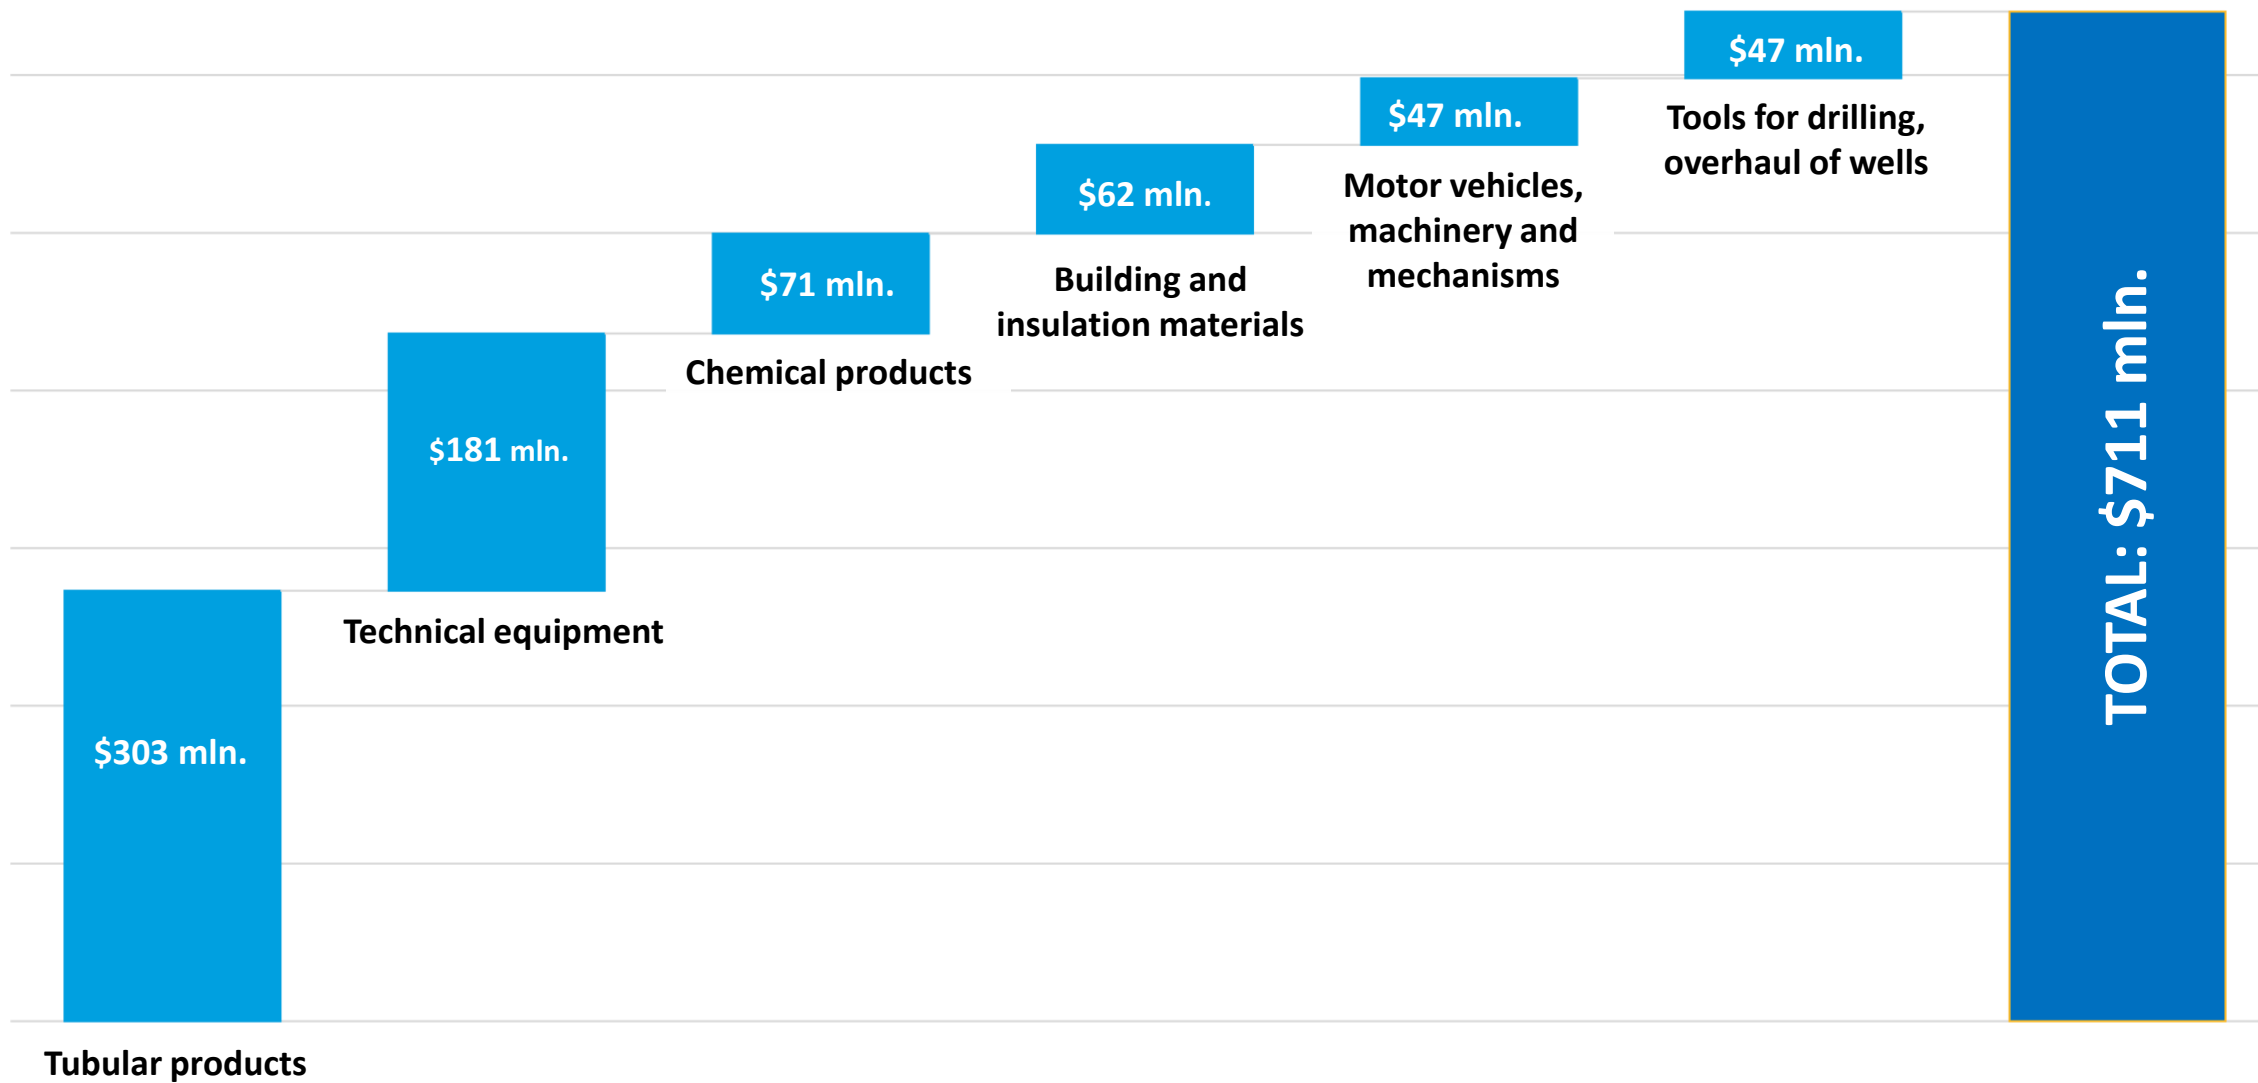

630+ coiled tubing operations to be performed

TOP 10 service categories for 2019 year

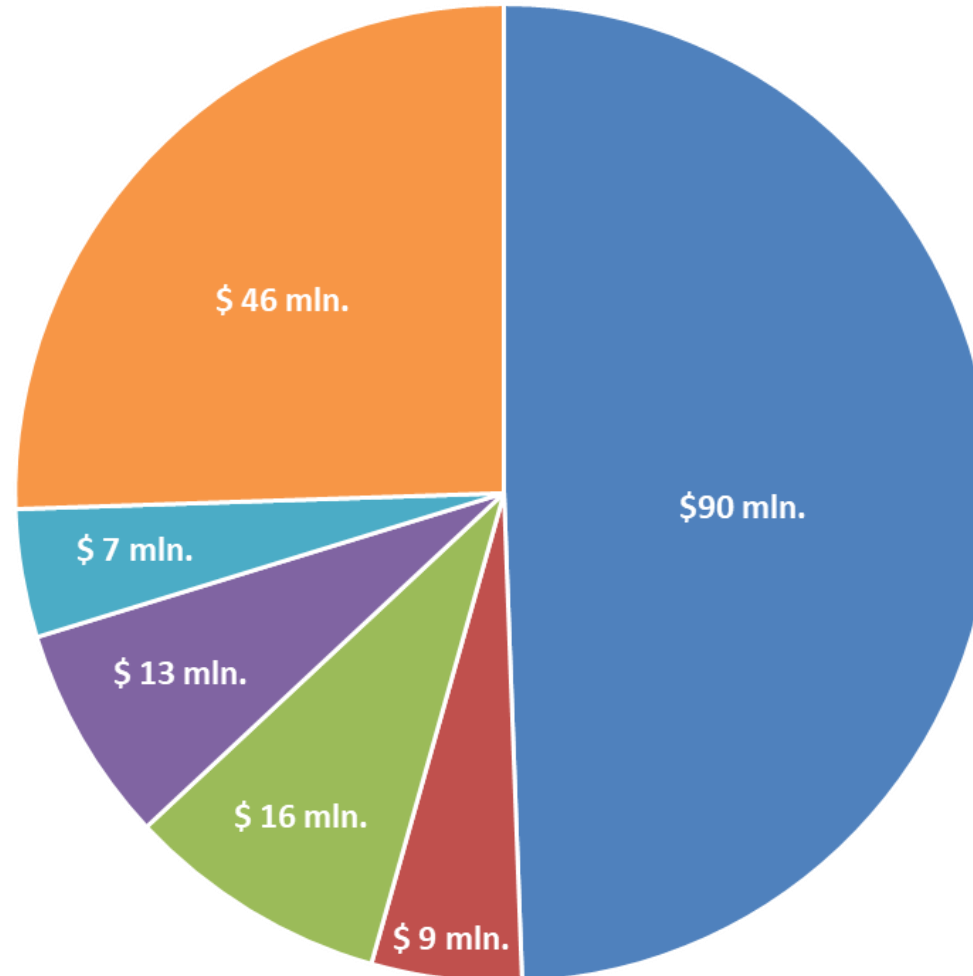

TOP material categories for 2019 year

Technical equipment

TOTAL: \$181 mln.

- Drilling equipment
- Mouthpiece equipment
- Heaters and oven burners
- Turbo compressor unit with a centrifugal supercharger and gas turbine engine
- High-tech open-bar devices compatible with an existing registrar
